# Family

# About the Farm

Last Updated 05/06/2025

- 648 hectares
- 137 tonnes of bin storage
- 305,000 tonnes elevator storage
- Trucking company
- Crop insurance company

# Markets

- Most grain delivered to rail-loading elevator
  - 75% rail to cattle facilities
  - 25% rail to ethanol facilities

# Conservation Practices

- Precision Conservation Management program
- Vertical tillage
- Cover crops – cereal rye and oats
- Filter strips and grass waterways
- Fertilizer applications
  - Fall nitrogen, phosphorous and potassium
  - Spring nitrogen
  - In season fungicide and micronutrients

# Conclusion

- IL corn farmers produce more grain on the same land every year
- Farmers are ready to supply more corn with lower carbon intensity
- US ethanol industry is ready to support more exports of low-CI ethanol
